Mapping Network Drives for Windows

You must be connected to the Cisco AnyConnect VPN in order to map your network drive off-campus. For more instructions on how to connect to the VPN, click here.

1. Open Start menu and search for and open This PC.

2. Click "Map Network Drive" at the top.

3. Select which drive to map from the drop-down.

   - For mapping the R drive, type in: \filed\department$

   - For mapping the N drive, type in: \fileu\users\youruser

Select "Reconnect at sign-in", then press Finish.
