How to remove a network profile (Windows)

The instructions below are for Windows 7, 8, and 10.

1. In the bottom right corner of your screen, click on the Wi-Fi icon.

2. In the pop-up window, click on 'Network settings'.
3. Go to Wi-Fi > Manage Wi-Fi settings.
4. Under 'Manage known networks', select eduroam and click Forget.
